

NORTH SHORE COLLEGE NEWSLETTER

NORTH SHORE COLLEGE

Editor's Note

Welcome to North Shore College's first newsletter issue. This is the first of many quarterly newsletters designed to keep our current students, faculty, staff, and alumni current with school events.

The newsletter welcomes articles from alumni and current student alike.

This first issue serves as an introduction to our school's culture. Our faculty and staff are passionate about providing the best possible knowledge and guidance to our students to pave the way to become strong clinicians.

PROGRAM DIRECTOR'S UPDATE

We successfully completed our first post-COVID Pinning Ceremony for batch 57 and batch 58.

We are very proud of our graduates who also took the NCLEX and passed on their first attempt.

North Shore College is well on its way of achieving its goal on our NCLEX passing rate as evidenced by our first quarter report of 100% on first attempt.

North Shore College is also increasing social media presence and will be relaunching Facebook and a new Instagram account.

Student's Corner

“Coming to North Shore College was the best decision I have made for my education. After researching the school, I was able to speak to Ms. Gloria about the program and she was very informative and helpful in my transition to this school. She also offered me information on a grant to help me pay my tuition fees. All the staff at North Shore College has been very helpful throughout all the classes and they really want students to be successful. We are continuously provided with support, continues clinical experience, and provided tools to prepare us for the NCLEX licensure exam.”

Katya Rosendo
Batch 60

We are now accepting applications for Pre-LPN and PN classes starting in August and September 2024. Referral bonus offered.

Ms. Amy has been with the team since March 2015. She has been in the academic field for 21 years. She provides guidance to oncoming students who wish to enroll at North Shore.
“Glad to be of assistance to students who wants to start a nursing career.”

- Amy Olan

Alum's Corner

“My initial thought about going back to school wasn't an easy one but with the guidance of the staff and administration of North Shore College, made the road a bit easier. Along that path, I've met new found friends who are now family. I wouldn't change my experience for anything in the world!”

Sabrina Johnson
Batch 58

Know faculty and staff

Ms. Sarah initially joined the team as an adjunct clinical instructor and transitioned to a full time position this year. Ms. Sarah's clinical background is pediatric nursing. Her areas of specialty: blood disorders, cancer, stem cell transplant, medical surgical. Still working part-time bedside nursing at an acute pediatric hospital. Offers CPR certification classes.

“I am very excited joining this team and get to know everyone.”

- Sarah Feller, BSN,RN

Words of Wisdom from Faculty and Staff

TOPIC: Surviving ATI Exams.

“Practice ATI questions and read every rationale including the explanations why the answer is wrong.”

- Neelam James, MSN,RN

We are celebrating our school's 14-year anniversary May 16th
